## Introducing the: **MHM 1000SC** **EPS Compactor**

### General Description :

The MHM 1000SC compactor is a robust, low maintenance machine achieving high compaction ratio's with both wet and dry polystyrene.

The straightforward operation of this machine allows it to be loaded as the waste is produced. The MHM 1000SC is the smallest EPS compactor in our range compared to the larger MHM 2000SC and MHM 3000SC models which have throughputs of 70kg - 200kg per hour.

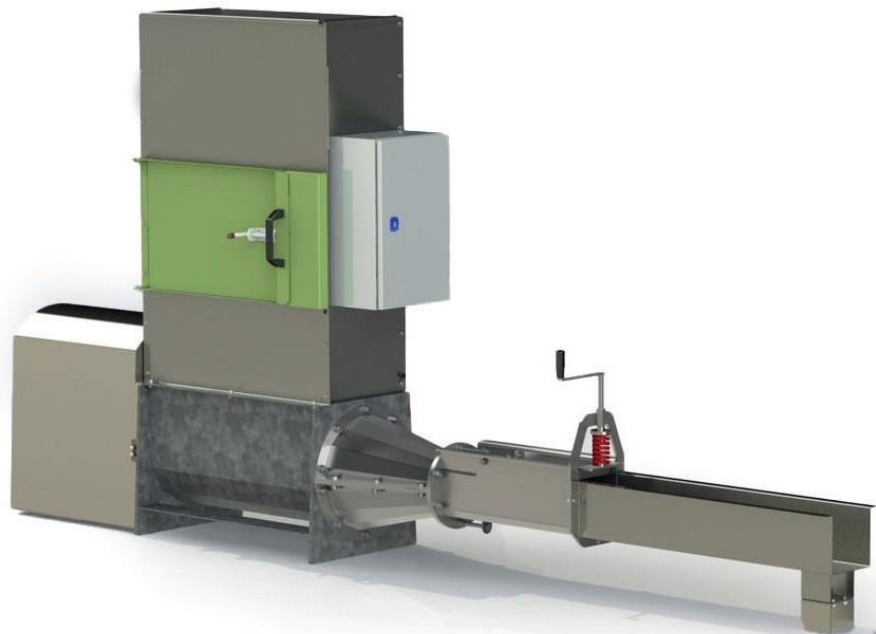

Average compaction ratio of 50:1  
Compacted EPS blocks can now be recycled

### Features & Benefits:

- Simple automated operation
- Easy to use touch screen controls
- Low maintenance
- Fast continuous throughputs
- Reduced waste disposal costs
- No waste to landfill
- Can be adapted for outside use
- Galvanised version available

### Ideal for:

- Furniture distribution
- Electrical Appliances
- Distributors
- Fish Processors
- Fruit Importers
- Supermarkets
