## Introducing the : MHM POWERBALE 40XL Semi-Automatic Horizontal Baler

### General Description:

The MHM Powerbale 40XL is the smallest unit in our Semi-Automatic Baler Range. It has proved to be an affordable step up from the more labour intensive vertical mill size Baler. It has the smallest footprint on the market which makes it ideal for site with limited space. The MHM Powerbale 40XL produces bale sizes of 1250mm x 800mm x 1100mm (L x W x H) producing bales between 400-500kg and up to 2 Tonnes per hour depending on the waste stream and the method of loading. The MHM Powerbale 40XL Semi-Automatic baler is a full bale eject machine with a portcullis door and anti-wire snap technology. Wear plates are fitted as standard in the bale chamber giving the machine unrivalled serviceability. The controls have multi product selection capabilities for various products ensuring maximum bale weights. Ripping teeth are fitted on the MHM Powerbale 40XL Horizontal Baler as standard. 5 Horizontal wire ties with an easy wire feed means no more climbing on a slippery machine to get the wires pulled through. The MHM Powerbale 40XL Semi-Automatic is manufactured in the UK by MHM (UK) LTD.

Heavy duty serrated cutting knife makes light work of cutting and baling with the minimum amount of effort.

**Technical Specification:**

Bale Size Nominal: 1250mm x 800mm x 1100mm (L x W X H)  
 Bale Weight: Up to 500kg (Dependent on waste stream)  
 Compaction Force: 40 Tonnes  
 Cylinder Bore: 160mm  
 Motor Power: 11kW  
 Power Supply Rating: 32 Amp 3P + N + E, D type breaker

Bale Discharge: Full Eject  
 Bale Chamber End Door: Manual Open, Hydraulic or manual clamp  
 Wire/Tape Tying: 5 Horizontal Wire Ties  
 Bin Tipper Range: 240 - 660 Litre (Optional)  
 Bale Made Light: Standard  
 Baling Wire or Tape Holders: Standard  
 Automatic & Manual Cycle Operation: Standard  
 Bale Chamber Wear Plates: Standard  
 Shear Blades: Standard

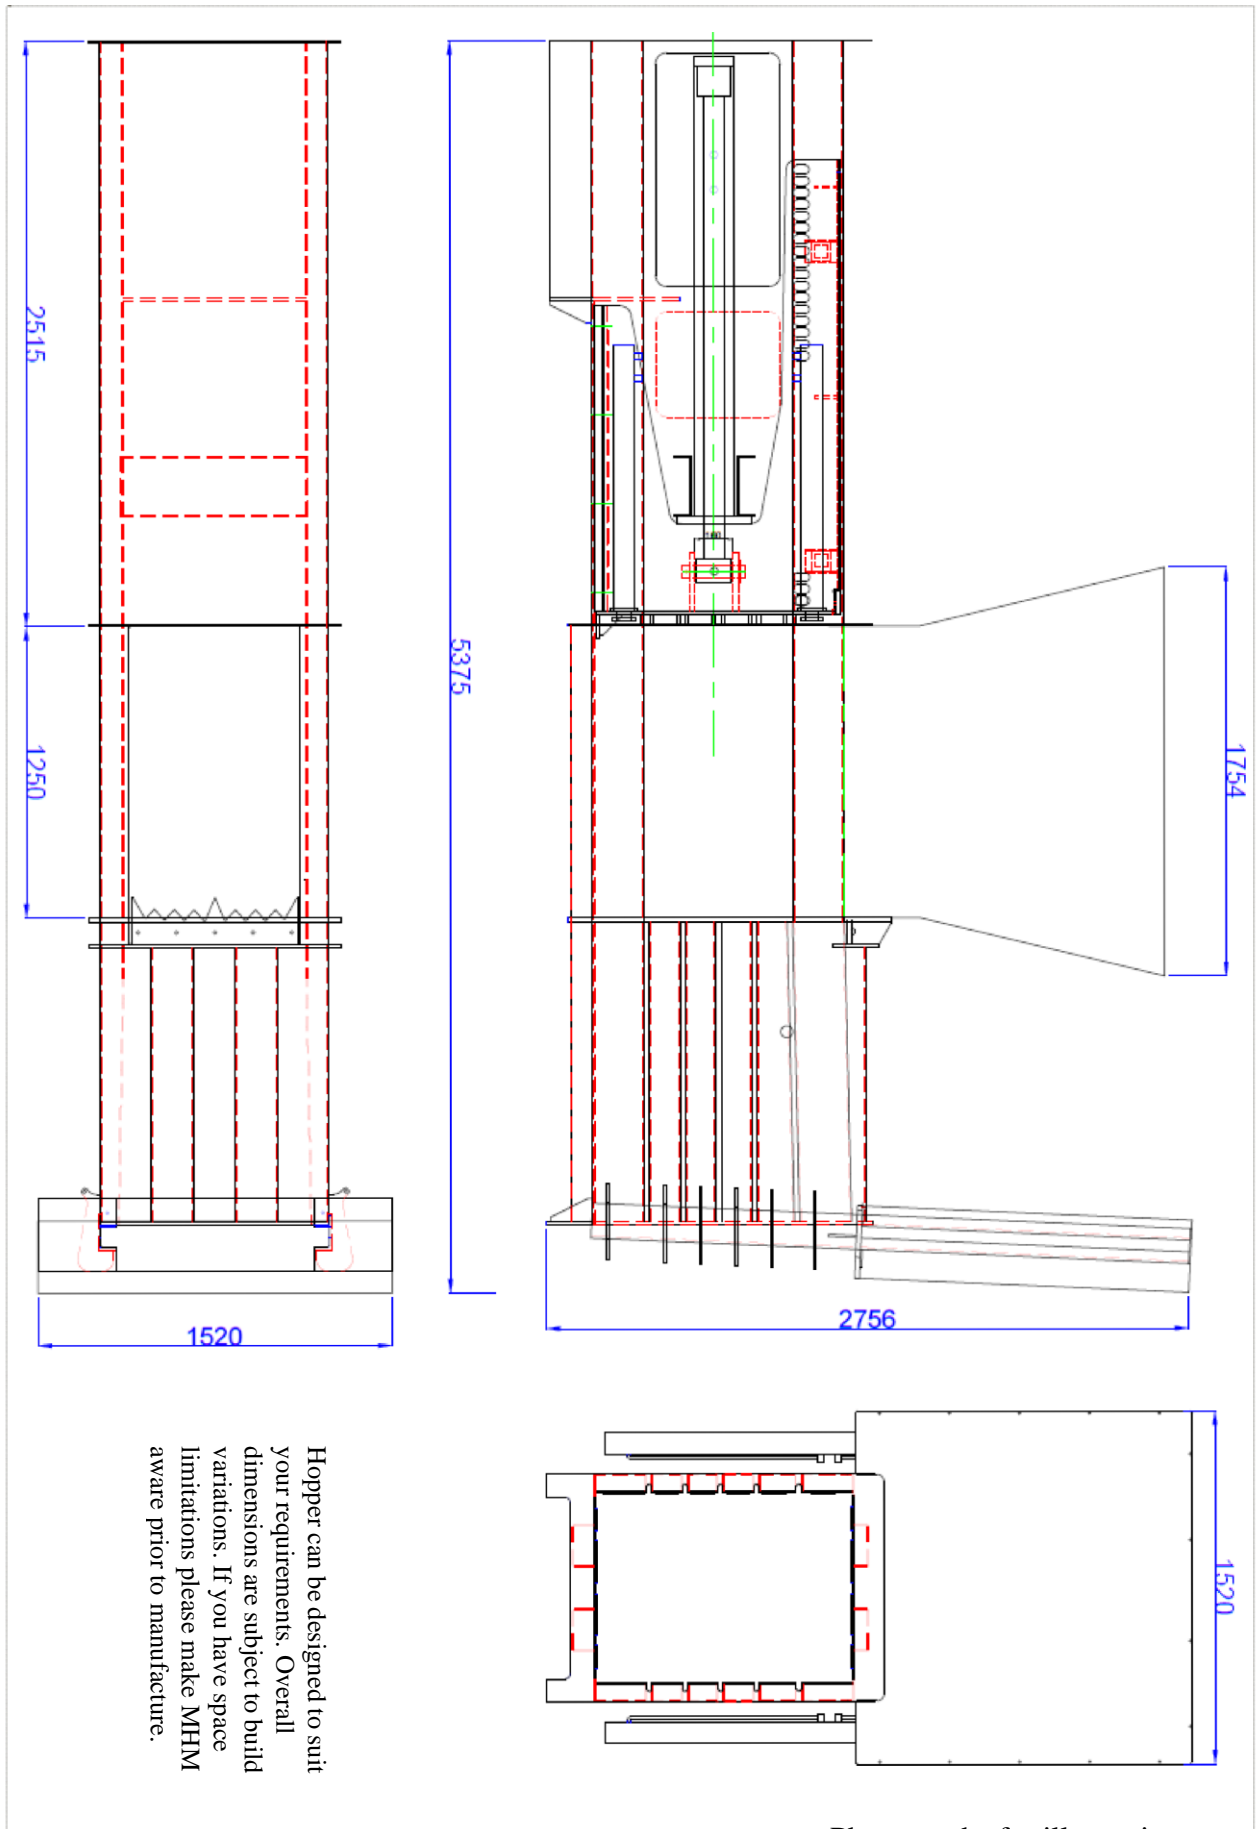

Dimensions:  
 Loading Aperture Nominal: 1250mm length x 800mm wide  
 Loading Height: 1650mm  
 Overall Baler Length: 5130mm  
 Overall Baler Width: 1360mm (without Bin Lift)  
 Overall Height: 2570mm
