## Introducing the: **MHM 2000SC EPS Compactor**

### General Description :

The MHM 2000SC has been developed with advanced technology that makes it capable of compacting large amounts throughputs of material. It has the ability to maintain a high compaction rate throughout operation on a continuous basis 70-90 kg per hour and will make block dimensions of 240 x 240mm with a variable length. In addition the MHM 2000SC is a very low maintenance machine.

Average compaction ratio of 40:1  
Compacted EPS blocks can now be recycled

### Features & Benefits:

- Simple automated operation
- Easy to use touch screen controls
- Low maintenance
- Fast continuous throughputs
- Reduced waste disposal costs
- No waste to landfill
- Can be adapted for outside use
- Galvanised version available

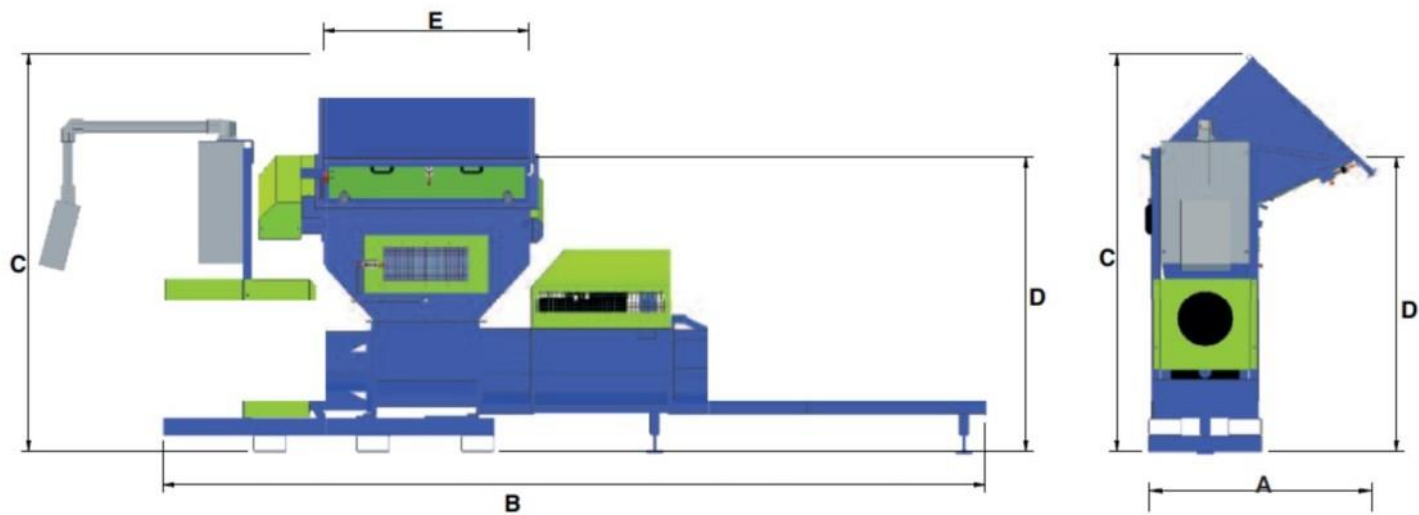

### Ideal for:

- EPS Polystyrene Fish Boxes
- EPS Polystyrene Packaging
- EPS Dust
- Polypropylene (EPP) Packaging
- Polyurethane Insulation Foam
