Introducing the: MHM BALER TC200 and TRC200

Twin and Triple Chamber Balers - produces bales up to 200kg

With two or three large loading apertures, the Baler TC200 and TRC200 exert maximum pressure to produce bales weighing up to 200kg. These models can be used for baling cardboard, plastics and even general waste. Ideal for the segregation of materials at source. Saves handling time with multiple bale chambers: free to load while other chamber compacts.

12 months parts and labour warranty.

CE marked and approved.
